Projects

- Tsuyoi (Women Safety Track Prize winner, DSC-WoW) – A seamlessly connected panic button, can be interfaced with a custom keychain/any wearable tech that can alert the local police and a trusted contact in no time. Learnt cloud computing. (https://adityamitra5102.github.io/blog/tsuyoi-winner-women-security-track-dsc-wow-cod-2020.html)
- Adam's Ale (Winner, Ideathon, DSC-VITAP, 2021) – A project redirecting people to their nearest source of potable water, thus preventing the risks of water-borne epidemics as an after effect of natural disasters. (https://adityamitra5102.github.io/blog/adamsale.html)
- And more projects https://adityamitra5102.github.io/Projects.html

Leadership

I lead my team in various hackathons and code jams and hence am confident about my leadership and team management skills.
